LAURIE BAKER CENTRE 2.0

07 days Hands-on
Summer School

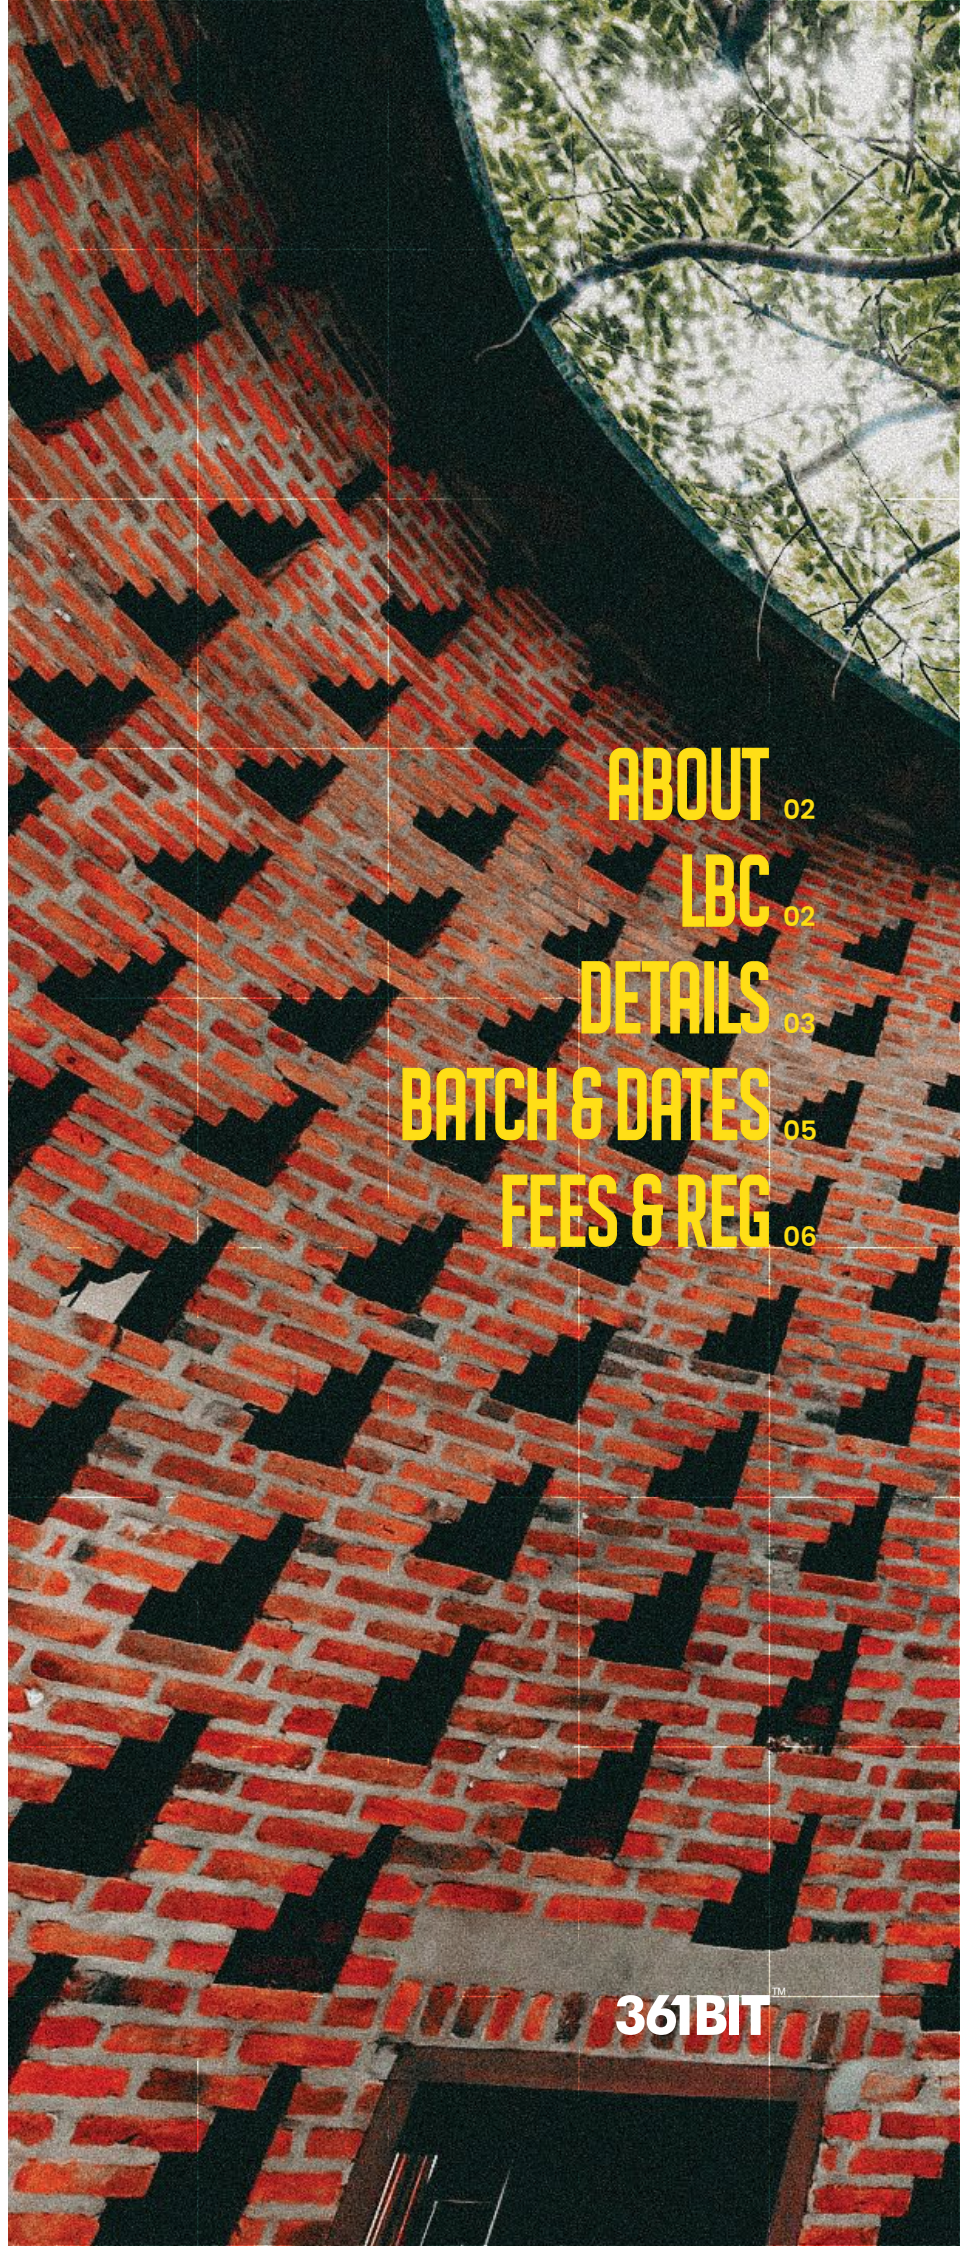

A practical experience and insights into real-world design and construction challenges through hands-on activities under the mentorship of expert designers, engineers and masons. These programs aim to equip participants with the skills to creatively design and innovatively implement the various knowledge systems from across the world.

The Laurie Baker Centre for Habitat Studies in Trivandrum has been established to promote the philosophy and legacy of Sir Laurie Baker, who pioneered a cost-effective, environment-friendly, and resource-based approach to building construction in India. Nestled amidst lush green forests, the LBC campus is a masterpiece of people-centric architecture!

ABOUT 02
LBC 02
DETAILS 03
BATCH & DATES 05
FEES & REG 06

The LBC 2.0 is organized into two batches, each with 50 participants. Each batch will start their journey from their specific location (pg 05) and travel to Kerala for the DesignShala. The school is designed to foster various hands-on skills, meaningful discussions, and valuable connections.

SCHEDULE

Day 01

Day 02

Arrival at LBC, introduction and overnight stay

Day 03

Workshop day 01. Intro to bakers approach and hands-on with Mud

Day 04

Workshop day 02. Climate responsive Arch. and hands-on with Bamboo and Brick

Day 05

Workshop day 03. Cost effective techniques and handson rubble, filler slab and arches

Day 06

Workshop day 04. Site visits to COSTFORD and various projects by sir laurie baker

Day 07

Departure from LBC after Breakfast

HANDS-ON WORKSHOP

The four-day workshop will include a combination of lectures, presentations, hands-on experiences, field visits, and audio-visual sessions. Participants will be introduced to alternative architectural approaches that emphasize cost-effective, affordable, environmentally friendly, and aesthetically appealing construction techniques.

ACCOMMODATION

DesignShala offers five days of comfortable dorm-style accommodation. Inspired by the philosophy of Sir Laurie Baker, this thoughtfully designed space is a true delight for every architecture enthusiast.

EXPERIENCE

The school is designed to promote diverse skills through hands-on activities, discussions, and connections.

Understanding the principles of cost-effective, affordable, and environmentally friendly construction.
Hands-on experience in masonry using mud, bricks, and rubble.
Practical training in the use of bamboo.
Understanding the concept and application of the filler slab.
Field visits to various buildings designed by the master architect Sir Laurie Baker, along with a visit to COSTFORD, the organization established by him.
